## ANALYTICS AND SAMPLE PREPARATION

Merck Spectroquant Move	Merck MQuant Test Strips	Merck CertiPUR
		
Simplify disinfection control	Fast determination of ions and inorganic and organic substances	Reference materials for AAS and ICP

## INDUSTRIAL MICROBIOLOGY

Merck EZ Product Family	Merck Milliflex Quantum	Merck Readybag granulated media pouches
		
Streamline your bioburden analysis workflow.	Detect microbial contamination fast, improve process controls.	Save bags of media preparation time.

## LIFE SCIENCE RESEARCH

Merck Sterile Filtration	Merck Non-Sterile Filtration	Merck Biomarkers & Immunoassays
		
Good cell culture practices start with proven products like Stericup and Millex filters.	Improve chromatography run reproducibility with efficient filtration.	Discover our multiplex & single protein assays for intracellular & soluble biomarkers.

## REAGENTS, CHEMICALS AND LABWARE

Merck Suprasolv	Merck Extran	Merck EMSURE
		
Solvents for headspace GC analysis of residual solvents.	Cleans safely, reliably, and residue-free.	Salts, acids, and caustics for analysis.

## WATER PURIFICATION

Merck Milli-Q Integral	Merck Watercare Pact	Merck Millitrac e-Solutions
		
Pure and Ultrapure water at your fingertips.	Your expert & partner in service.	For optimize laboratory performance and remote access.

## AGILENT TECHNOLOGIES

Chromatography and Mass Spectrometry	1260 Infinity Binary LC Systems	7890B Gas Chromatography
		
1200 Infinityseries HDR-DAD Impurity analyzer system	Cost no more than a typical HPLC system but yields faster results.	Help you get more done in less time

## AGILENT TECHNOLOGIES

Biodiesel Analyzer Gas Chromatography	7900 ICP-MS	6400 Series Triple Quadrupole LC/MS
		
Comprehensive solution for biodiesel, biogas, and fuel ethanol analysis.	Redefining ICP-MS	Proven choice for unmatched productivity, performance, and value for all quantitative analysis.

## RUDOLPH RESEARCH ANALYTICAL

Autopol V Polarimeter	DDM Automatic Density Meters	J357 Refractometer
		
Designed for today's FDA regulated analytical laboratories.	Designed for the most demanding cGLP/GMP laboratories	The perfect choice for pharmaceutical, chemical, petroleum, essential oils, fragrance and cosmetic products.

## ANALYTIK JENA

Bioshake Series	Speedmill PLUS	InnuPure C16
		
High speed mixer and thermal mixer.	A powerful and high efficient homogenizer.	A flexible and efficient extraction system.
